PROVIDE A SHORT OVERVIEW OF YOUR WORK/PRODUCT/PROJECT

Tell us about the work of the individual/ product/ project nominated. Please take time to draft this carefully – as we will allocate points based on how your entry reflects each of the seven V.I.R.T.U.E.S of Eco-Logic as listed below as well as on the scale and size of the impact you have had. (Note, we do not accept theoretical entries that have not actually been implemented or had no measurable material impact)

NOW, TELL US HOW YOU EMBRACE THE SEVEN VIRTUES OF ECO-LOGIC:

1. VISION and PURPOSE

What vision or higher purpose does your Project/Initiative/Product or Service serve or promote - beyond self-gain?

Max 100 words

2. INCLUSIVE and INTERCONNECTED

In what way does your Project/Initiative/Product or Service demonstrate Inclusive (Holistic and Systemic) thinking - by serving more than one objective?

Max 100 words

3. RECONNECTING and REGENERATIVE RELATIONSHIP WITH NATURE

How does your Project/Initiative/Product or Service:

A) Minimise harm to the Earth?

B) Benefit the Earth?

Max 200 words

4. THREE DIMENSIONAL INTELLIGENCE

We are blessed with instincts + intuition (emotional intelligence) + intellectual (logical) forms of intelligence. They are equally important in order to achieve both intelligent and compassionate decisions and actions.

A) In what way is your Project/Initiative/Product or Service 'intellectually intelligent' ?

B) In what way is your Project/Initiative/Product or Service 'emotionally Intelligent' (i.e. creates an emotional 'feel good' factor or demonstrates compassion and care)

C) In what way is your Project/initiative/Product or Service innovative (According to Albert Einstein – our intuition is the best source of innovation)

Max 200 words

5. UBUNTU

How does your Project/Initiative/Product or Service build community and/or show care and consideration for others (Ubuntu)?

Max 100 words

6. ECO-ETHICAL CONSUMERISM

In what way does your Project/Initiative/Product or Service reflect superior quality and/or meet highly ethical standards of construction or production?

Max 200 words

7. SUSTAINABLE

In What Way does your Project/Initiative/Product or Service reflect long-term thinking (sustainability)?

Max 100 words

8. SCALE OF IMPACT

Tell us about the scale of impact you have had in terms of size; distribution; numbers of people or organisations influenced; resources saved or products or services delivered.

Max 100 words

Additional Information and items to be include with online entry submission:

1. References to validate your information
2. Your company logo (**requirement**)
3. Up to three images of your product: Profile photo of eco-champion/Product/Team at work (Jpg – total file size no larger than 5mb) (please caption your images, or ensure that the meta data contains information about the image, eg name of people in the image, what is happening etc.) (**requirement**)
4. Link to online video clip 1 (optional)
5. Link to online video clip 2 (optional)
6. Up to 3 news clippings/links (file size no larger than 2mb) (optional)
7. Up to two supporting documents (optional)
